This booklet contains the scopes of practice for emergency medical services personnel (EMS) in South Dakota. In order to work at any level of EMS, the individual must be licensed by the South Dakota Board of Medical and Osteopathic Examiners (SDBMOE). All EMS training programs must be approved in advance by the SDBMOE.

A South Dakota licensed physician medical director may limit the scope of practice/skills for any level of EMS personnel; however, the physician medical director may not expand the scope. All changes to any of the scopes of practice or skills must be approved in advance by the SDBMOE.

The six EMS license levels are as follows:

- emergency medical responder
- emergency medical technician
- emergency medical technician-intermediate/85 (I/85)
- emergency medical technician-advanced (EMT-A)
- emergency medical technician-intermediate/99 (I/99)
- paramedic

The scope of practice for each level is part of a sequence that starts with the scope of an emergency medical technician (EMT). Then, each ALS license level is built upon the knowledge, skills, and competencies of the lower levels:

- the I/85 must meet all of the competencies of an EMT, as well as those specific to the entry level I/85
- an EMT-A must meet all of the competencies of an EMT, and the I/85, as well as those specific to entry-level EMT-A
- an I/99 must meet all of the competencies of the EMT, I/85, and EMT-A, as well as those specific to entry –level I/99
- an EMT-P must meet all of the competencies of the EMT, I/85, EMT-A, and I/99, as well as those specific to entry –level Paramedic

EMS personnel shall be supervised by a physician who directs and reviews the work records and practice permitted by §§ 36-4B-15, to ensure that the patient is given proper treatment. If the ambulance service has an approved hardship waiver on file with the SD EMS office, the EMS personnel of that ambulance service may be supervised by a SD licensed nurse practitioner or SD licensed physician assistant.

South Dakota paramedic licensees can request the critical care endorsement, if they meet the statutory requirement of 36-4B-18.1, by following these instructions:

- Send email with information i, ii, and iii below to sdbmoe@state.sd.us
 - i. **Subject Line of Email** your: First Name Last Name Critical Care Endorsement
 - ii. **Attach a copy** of your completion certificate from the International Board of Specialty Certification
 - iii. Put this **message in body** of Email: “I am certified as a critical care paramedic or flight paramedic by the International Board of Specialty Certification. Please add this to my file.”
